

Application No.: 10/608,026  
Amendment dated  
Reply to Office Action of September 28, 2006

**RECEIVED**  
**CENTRAL FAX CENTER**  
**OCT 10 2006**

monomers, acrylic monomers, methacrylic monomers and combinations thereof, with energy from a radiation source, with the proviso that the linkages between the hard and soft segments of the polyamide/polyether block (PEBA) copolymer consist of amide linkages and the polyamide segments of the copoly(ether-ester-amide) copolymer consist of polyamide Nylon 12 segments.

**Remarks/Arguments:**

Examiner has indicated that applicant's amendment of September 7, 2006 failed to comply with the provisions of 37 CFR 1.121. This amendment provides compliance with the provisions of 37 CFR 1.121 as follows:

In the Specification, the entire paragraph [0087] has been recited. A new underlined formula indicating the correction of a typographical error wherein "CO" was typed instead of "CO-O" has been inserted. The original formula has been deleted with strike-throughs.

In the Claims, new claim 34 has been presented without the underlining incorrectly shown in the previous reply and amendment.

Respectfully Submitted,

ALAN M. ZAMORE
